

## THE HOUSE STORY

Comfort is key when you're at home, and we replicate the same solace at HOUSE. Perched atop Dempsey Hill, HOUSE is a 4,000 square-foot residence-gallery to everything that's visually stimulating. From plating to comforting, creative gastronomy that combine local flavours with the global palate to tease and please curious taste buds; to the lush woodland surrounds, and even the stunning works of art dotted around the property - HOUSE possesses the elements of a true multi-sensory experience.

# Jonning and Alice:

“ Our wedding was simple, relaxed, fuss-free, and casual. We wanted the guests to mingle around instead of just sitting with people that they are familiar with. It's a gathering of friends and family members - people whom we genuinely want to share the special day with. ”

Our clients shared the same sentiment when asked why HOUSE?  
Our team is grateful to be give the opportunity to execute their vision in line with the restaurant's concept.

Thank you for perusing and we look forward to hosting you one day!
